

LENAWEE COUNTY HEALTH DEPARTMENT

A large, dark grey sign stands in a grassy field. The sign is rectangular and mounted on two pillars. It features the text "LENAWEE COUNTY" on the top line and "HUMAN SERVICES BUILDING" on the bottom line, both in a light-colored, serif font. In the background, a multi-story brick building with large windows is visible under a clear sky.

HEALTH OFFICER

MARTHA HALL

A Message From the Health Officer

It is my pleasure to present the 2018 Annual Report for the Lenawee County Health Department. This report reflects the dedication and effort put forth by health department staff, the Board of Health, the Lenawee County Board of Commissioners, Lenawee County Administration and the many community partners that work together to improve the health of the citizens of Lenawee County. A few highlights from 2018 include;

- Adopted a strategic plan which has been valuable in guiding our work
- As part of the strategic planning process, new mission and vision statements were created to reflect our commitment to a healthy community
- Wear One, a free condom distribution campaign to address the rise in sexually transmitted infections was launched in Lenawee County with great success
- Responded to statewide Hepatitis A outbreak

We will continue to work with our community partners to promote the best possible health outcomes for all citizens of Lenawee County.

Best regards,

Martha Hall, REHS/RS, MPH
